**SCHOOL SAFETY SPECIALISTS  
AND SAFER SCHOOLS**

Establishing and maintaining a safe school environment where teachers can teach and students can learn is the goal of every school system. A key to success in reaching this goal is having a well-trained, highly motivated, and active Incident Management Team. A School Safety Specialist keeps teams actively engaged and focussed while offering guidance to support their success.

They also strengthen overall school safety by reinforcing protocols, supporting drills, and providing training in de-escalation and crisis response. By working closely with administrators, counselors, and local public safety, they help ensure coordinated, proactive responses. This consistent support helps reduce vulnerabilities and promotes a safer school environment.

**SCHOOL SAFETY  
SPECIALIST**

*With school staffing stretched thin, keeping an active Incident Management Team on track is challenging—our School Safety Specialist Program provides onsite support to help close staffing gaps.*

## WHO WE ARE

With school staffing stretched thin, maintaining an active Incident Management Team can be difficult, especially when schools are balancing competing priorities and limited personnel. These pressures can strain staff and reduce consistency in emergency readiness and response.

Our School Safety Specialist Program provides onsite support to help close staffing gaps and strengthen emergency preparedness. By placing experienced personnel directly in schools, our team helps keep Incident Management Teams active, organized, and supported while improving coordination and overall safety operations.

## HOW WE CAN HELP

Do you have a school-based Incident Management Team that also includes Public Safety representatives?

---

Do you have a comprehensive Emergency Management Plan?

---

Do you meet annually with the Police and Fire Chiefs to comply with the Acts of 2000 Chapter 159 Section 363?

---

Do you conduct site safety audits of your school buildings on an annual basis?

---

Do you provide All Hazard safety training for your faculty and staff?

---

If you answered no to any of the above A.C.T. For Safety, LLC can help.

## WHY CHOOSE US

From assisting with School Emergency Management Plans to helping you practice emergency response, our School Safety Specialists are the solution.

Our specialists bring extensive public safety experience and have worked closely with school systems, providing the support you need.

You retain local control with your public safety partners, while A.C.T. For Safety, LLC offers recommendations, guidance, and hands-on assistance to keep your teams motivated and successful.

We can develop a custom tailored program for each school system where a School Safety Specialist will spend time each month working with your teams to support your school safety objectives for the school year.
